Mieli Thun Acacia Honey

Di Palo Selects imports some of the finest, handcrafted gourmet products Italy has to offer. Mieli Thun Acacia Honey is an award-winning product from Trentino-Alto Adige created by a passionate beekeeper named Andrea Paternoster.

Paternoster takes his nomadic bees all around Italy to gather pollen from different plants in bloom at the peak of their seasons. The resulting Mieli Thun Acacia Honey is a delightfully delicate, florally aromatic clear light yellow honey.

Mieli Thun Acacia Honey is produced in the month of May and features mellow vanilla tones. This honey is positively delicious drizzled on everything from a slice of toast to a bowl of plain vanilla bean ice cream.
